

Wherever they are in the world, people have one fundamental expectation when they use their mobile devices: That they work.

**We make mobile work.**

**We make  
mobile  
work.**

*We make mobile work.™*

# Mobilize your world with Syniverse

More so than any other company, Syniverse understands why mobile connections matter. Everywhere. For everyone. As the force at the center of the mobile universe, Syniverse pulls the wireless world together and creates the synergies that keep people connected. We work with the best-known operators, cable and Internet providers, and enterprises. We make mobile happen today and forge new connections for tomorrow.

## Syniverse...

- **Connects** more than 800 communications providers and businesses in over 160 countries.
- **Reaches** more than 1.7 billion mobile subscribers globally.
- **Moves** trillions of mobile messages across the world's networks each year.
- **Provides** services to the world's top companies, including the top 10 operators in North America and nine of the top 10 globally.
- **Enjoys** a 20+ year track record of growth, innovation and success solving the mobile industry's business and technical complexities.
- **Believes** in customer service and proves it with a 99% customer retention rate.

Syniverse is much more than a technology vendor. We are a mobile confidant that channels the power of mobile communications to simplify complexity and ensure our customers' subscribers can use their mobile services anywhere, anytime.

### **Syniverse makes connecting easy.**

When connections fail, customers are lost. So we are always behind the scenes, tackling the hard work of creating and maintaining today's connections and forging new ones for tomorrow.

### **Syniverse is the bridge between islands.**

We provide the bridges needed between an ever-growing list of technologies, standards and networks used for voice, text, video, images and applications in today's increasingly complicated mobile ecosystem.

### **Syniverse is the super specialist.**

It's not that we "do it all" – it's the knowledge and expertise that doing it all gives us. As visionaries, we anticipate pitfalls and identify new opportunities that others in the mobile world can overlook.

### **Syniverse puts customers first.**

Customer service at Syniverse is more than lip service. Real systems, processes and a clear commitment from the top sets us apart.

### **Syniverse takes mobile connections to a new level.**

We connect the dots in ways no one else can. The massive amount of data moving across our networks each day poises us to unlock value, so we can help customers make better business decisions.

▼  
**SMS and MMS. Voice and video. Email and social networking.**  
Nobody knows the mobile universe like Syniverse. We keep mobile in motion.

### **Syniverse MORE<sup>SM</sup> Roaming Solutions**

At Syniverse, a deep understanding of what it takes to give subscribers a seamless roaming experience along with our comprehensive set of integrated roaming solutions simplify business relationships and bridge technical gaps among the world's growing number of partners.

### **Syniverse NEXT<sup>SM</sup> Messaging Solutions**

SMS. MMS. IM. Syniverse's worldwide presence, reliability and scalability give us the ability to deliver P2P and A2P messages to more than three billion mobile subscribers globally.

### **Syniverse PRIME<sup>SM</sup> Network Solutions**

A full spectrum of proven voice and data connectivity services helps our customers achieve operational efficiency, cost savings, high quality of service and the capacity to easily adapt to future technologies.

### **Syniverse Business Intelligence Solutions**

Our data-driven proactive tools help our customers gain a detailed understanding of their businesses and subscribers to make well-informed business decisions; deliver high-quality mobile experiences; and capitalize on the exponential growth in voice, data and messaging.

### **Syniverse Turn-Key Solutions**

This set of operation-ready prepaid platform and services, data management solutions, value-added subscriber services, and roaming interoperability tools is designed to increase customer satisfaction and grow revenue for our customers.
